

MEMORANDUM OF UNDERSTANDING

Between

Wellington Gombarume

And

Ethan James

This Memorandum of Understanding (MOU) is made and entered into on this 14th day of November, 2025 by and between:

1. PARTIES TO THE AGREEMENT

- 1.1 Wellington Gombarume, an Innovator and student at the National University of Science and Technology (NUST), referred to as “Team Member”
- 1.2 Ethan James an Industrial and Manufacturing Engineer and a graduate trainee at Voltron Mining, Zimplats, referred to as “Team Member”.

Together referred to as “the Parties” and individually as a “Party”.

2. PURPOSE

The collaboration is focused on the co-creation, design, development, and final submission of the project titled: "AI Predictive Maintenance for Industrial Rotating Equipment".

- Successfully design and build the hardware test bench as specified in the project proposal.
- Collect and meticulously label a high-quality, open-source dataset featuring vibration, temperature, and current data for the four (4) defined motor states.
- Design, train, and validate a high-accuracy machine learning model using the Edge Impulse platform.
- Produce all required submission materials, including a public GitHub repository, a detailed README, all source code, and a final demonstration video.

- Compete for prizes by fulfilling all hackathon judging criteria, including real-world impact, dataset quality, and effective use of Edge Impulse.

3. INTELLECTUAL PROPERTY (IP)

- 3.1 All Intellectual Property (IP), including but not limited to software, firmware, datasets, and documentation, developed under this MOU for the hackathon shall be jointly and equally (50/50) owned by both Parties.
- 3.2 In accordance with the hackathon submission guidelines, the Parties agree to license the submitted project code and dataset under a permissive open-source license (e.g., MIT License or Apache 2.0) upon final submission
- 3.3 Both Parties shall be credited as primary authors and contributors on all submission materials, including the GitHub repository, README file, and any video or blog post created.

4. DISTRIBUTION OF PRIZES

- 4.1 All monetary prizes awarded to the project by the hackathon organizers shall be divided equally (50/50) between the Parties.
- 4.2 Non-monetary prizes (such as hardware, vouchers, or swag) shall be shared to the greatest extent possible. If a non-monetary prize is indivisible, the Parties shall mutually agree on its allocation or ownership.

5. ROLES AND RESPONSIBILITIES

The Parties shall jointly:

- Contribute to the strategic planning, technical architecture, and successful completion of the project.
- Collaborate on the data collection campaign, model training, and troubleshooting.
- Participate in the creation of the final submission materials, including documentation and the demonstration video.
- Maintain open and regular communication (e.g., daily check-ins) for the duration of the hackathon.
- Ensure all work submitted is original and adheres to the hackathon's rules and code of conduct.

6. TERM

This MOU is effective upon signing and will continue for the duration of the Edge Impulse Hackathon (approximately November 15, 2025, to November 29, 2025). It shall terminate automatically upon the final submission of the project or the conclusion of the hackathon, whichever is later.

7. CAPITAL CONTRIBUTION

7.1 Contributions by the Parties shall be in-kind and do not require financial reimbursement from the other Party. These contributions include, but are not limited to:

- Development time, technical expertise, and labor.
- Personal hardware used for the project (e.g., laptops, microcontrollers, sensors, and motor test bench components).
- Access to personal software licenses and cloud platforms.

8. CONFIDENTIALITY

8.1 The Parties agree to keep project strategies, unsubmitted code, and novel concepts confidential until the point of official public submission to the hackathon.

9. DECISION-MAKING

9.1 All strategic decisions regarding the project (e.g., choice of algorithm, final submission content, pivot in strategy) shall require mutual consensus (100% agreement) from both Parties.

10. DISSOLUTION

10.1 In the event one Party is unable or unwilling to continue their participation in the hackathon, that Party shall provide immediate written notice to the other Party.

- If a Party withdraws, they forfeit any claim to potential prizes and ownership of the final submission.
- The remaining Party shall have the full right to continue the project, use any and all jointly developed IP (as per section 3.2), and submit the project individually or with a new partner.

11. AMENDMENTS

Any modifications to this Agreement must be made in writing and signed by all Parties.

12. GOVERNING LAW

This MOU shall be governed and interpreted in accordance with the laws of the Republic of Zimbabwe.

13. SIGNATURES

IN WITNESS WHEREOF, the Parties have executed this MOU as of the day and year first above written.
