

NON-DISCLOSURE AGREEMENT

This Non-Disclosure Agreement (the “Agreement”) is entered into as of this 14th day of November, 2025 by and between:

Wellington Gombarume, an Innovator and a student at the National University of Science and Technology, NUST,

and

Ethan James, an Industrial and Manufacturing Engineer and a graduate trainee at Voltron Mining, Zimplats, referred to as (“the Receiving Party”), collectively referred to as the “Parties.”

1. Purpose

The Parties wish to explore an innovative collaboration relating to the co-creation, design, development, and deployment of the project titled: "AI Predictive Maintenance for Industrial Rotating Equipment".

The collaboration mainly aims to:

- Successfully design and build the hardware test bench as specified in the project proposal
- Collect and meticulously label a high-quality, open-source dataset featuring vibration, temperature, and current data
- Design, train, and validate a high-accuracy machine learning model using the Edge Impulse platform
- Produce all required submission materials, including a public GitHub repository, all source code, and a final demonstration video

2. Confidential Information

For the purposes of this Agreement, “Confidential Information” shall include, but not be limited to:

- 2.1 The project proposal, system architecture, and technical diagrams.
- 2.2 The complete, raw, and labeled multi-sensor dataset (vibration, temperature, current).
- 2.3 Algorithms, machine learning models, and Edge Impulse configurations.
- 2.4 Firmware, source code, and implementation strategies.
